RE: Landfill Charges and Regulations

To Whom It May Concern,

Effective June 1, 2011 all clean wood and clean fill will be chargeable items. Clean wood will be charged at a rate of \$100 per tonne and clean fill at a rate of \$50 per tonne.

Clean fill would be described as any native material that does not include construction debris or any contaminants.

Also, effective immediately, liquid wastes such as drill mud, slurry and hydro excavation material will not be accepted at the landfill. However, if the hydro excavation trucks are de-watered in an approved location they will be permitted for dumping at the landfill with the applicable fees.

We thank you for your cooperation with these changes and look forward to working with you to implement them. If you have any questions regarding the policies please do not hesitate to contact the undersigned.

Sincerely,

A handwritten signature in black ink, appearing to read "Stuart Doyle".
