

CALL BEFORE YOU DIG

Are you putting in fence posts, planting a tree, excavating for a pool, deck or a new addition? Before you dig, think about what services might be buried in the ground because what you can't see can hurt you.

Before You Dig

As a Contractor or Homeowner, you are responsible for obtaining locates for all utilities/services prior to digging. These services include: natural gas pipes, telephone lines, hydro or cablevision cables and water/sewer pipes. Ontario One Call will confirm which utility company they provide locate services for. You are responsible for directly contacting utility providers, who are not members of Ontario One Call.

What is at Risk?

If you are digging by hand or excavating with machinery, you risk damaging an underground network of services. Having your utilities located before you dig is also the law under the Ontario Occupational Health and Safety Act

Damaging underground services can have serious consequences:

- Personal injury
- Loss of essential services, creating a safety risk for others
- Expensive restoration costs and potential legal actions

Free Locating Service

This is a **FREE** locate service called **Ontario One Call** to help you protect yourself and others from unnecessary damage. The location of the spots you should avoid are marked with specific colour codes (paint, stakes or flags), depending on the utility involved.

	Red - Electricity
	Yellow - Gas, Oil, Steam, Chemical
	Orange - Communication, CATV
	Blue - Water
	Green - Sewer , Storm Drain
	Pink - Temporary Survey Markings
	White - Proposed Excavation
