## TOWN OF SAUGEEN SHORES Information to Property Owners North Shore Road

June 10, 2010

---

### BACKGROUND

To minimize the impact to the property owners of the construction and installation of the multi use path on North Shore Road staff are proposing to make the following change to the project.

Staff are proposes the following:

1. To provide a beach access from the multi use path via a set of stairs to the cobble beach.
2. A suitable location has been established based on various criteria set by the SVCA with their approval in principle of the request.
3. The location is approximately in the centre of the 330m length where the multi use path is adjacent to the road, across from #140 North Shore Road. This one proposed beach access combined with the two access points where the off road multi use path starts will have a beach access point within approximately 80 m for any property owner between #124 and # 154 North Shore Road.
4. The proposed 36" wide stairs with hand rails on both sides would be constructed of steel and galvanized for ease of maintenance.

5. For a continuation of the protection provided by the handrail along the concrete section of the path a gate would be placed for access to the stairs.
6. The location and details of construction and installation are subject to a SVCA permit and final approval.
7. When input is received by the property owners a Report will be prepared for Council's consideration and direction.
