NOTICE TO RESIDENTS OF HIGHLAND STREET

FROM SANDY ACRES ROAD TO JOSEPH STREET

The top course of asphalt has been completed on Highland Street as part of last year's sanitary sewer installation.

As is common practice, the placement of the top course of asphalt was delayed to allow time for any settlement that may occur as a result of the deep sanitary sewer installation.

Some settlement of the road surface was expected and where settlement has occurred in several areas the asphalt was inspected and found to be structurally sound. These areas were "padded" with asphalt to level off the road surface prior to the surface coarse asphalt being placed.

After the placement of the surface asphalt some deviations (low spots) have occurred in the surface asphalt when the final rolling was being completed.

The road surface will be monitored and, if required, additional asphalt padding will be completed late this year prior to winter maintenance activities.

If you require additional information or have any concerns, please contact David Burnside at the Town of Saugeen Shores at (519) 832-2008 Ext. 123 or Stuart Doyle at the Town of Saugeen Shores at (519) 832-2008 Ext. 101.
